Projects

Namma Metro Application (2019)

Cross platform mobile app

Cordova, Adobe PhoneGap

- Developed to help users to get information about details (like fare for token and card, distance travelled, number of stations, changes) between metro stations.
- Shows map of Bangalore Metro.
- Recharge metro cards.

Blood-Bank Management System (2019)

Database based application

C# and Sqlite

- Designed using C# and .Net framework in front-end and Sqlite database in the back-end.
- Developed to help donors, blood bank branches and hospitals to automate the blood supply.
- Blood recipients can find donors or blood banks near them and contact them.

Workshops Attended and Professional Experience

- Worked in startup company (Jan - Feb 2020) as a front-end developer and developed an app to take online tests and prepare for exams Cross platform mobile app development (CPMA) workshop
- IOT challenge workshop
- Arduino workshop
