Projects

Namma Metro Application (2019)

Cross platform mobile app   Cordova, Adobe PhoneGap

- Developed to help users to get information of details (like fare for token and card, distance travelled, number of stations, changes) between metro stations.
- Shows map of Bangalore Metro.
- Recharge metro cards.

Blood-Bank Management System (2019)

Database based application   C# and Sqlite

- Designed using C# and .Net framework in front-end and Sqlite database in the back-end.
- Developed to help its donors, blood bank branches and its hospitals to automate the blood supply.
- Blood recipients can find donors or blood banks near them and contact them.

Workshops Attended/Volunteered

- Cross platform mobile app development (CPMA) workshop
- IOT challenge workshop
- Arduino workshop

Awards

- Microsoft certification for JavaScript programming.
  (https://www.youracclaim.com/users/prajwal-p.2f6b90dd/badges)
- Participated in many cultural events
- Learnt abacus
